Information system Veda

Information System for Creative Activities, Projects and Mobilities is accessible to each CU's worker and student. It is chiefly used by the academic and scientific staff and students of doctoral study programmes (more than 5000 unique users per year)

Its particular modules are intended for:
? Management of the internal classification of academic fields
? Recording outputs of creative activities
? Management of internal tenders and mobility
? Recording projects
? Management of Cooperatio programme
? Management of the Evaluation of creative activities
? Recording participation in Large Research Infrastructures
? Recording employee mobility

Access and additional information
You can access the system at: https://is.cuni.cz/veda/ .
More information on the access to the IS Veda and its operation can be found at the CU's web (so far only in Czech though)
