# Windows 10

---

These instructions describes the settings of Windows 10 operatig system for connection to the wireless network **eduroam**.

## **Automatic configuration**

The easiest way to setup WiFi connection to the eduroam network on Windows 10 is to use automatic configuration program: [eduroamcuni3.exe](#) .

After executing this program the operating system will display the following dialog. Please enter you username (including realm) and your password.

Sign in

# Sign in

12345678@cuni.cz

..... 

Domain: cuni.cz

OK

After successful login the username and password is stored into your system and there is no need to enter it again on the next connection to the WiFi network.

Name and *eduroam* logo are registered trademarks of the [TERENA](#) .
