# Other services

---

In section 'Other services', we also offer:

- High performance computing  
*Students and employees of the Charles University can, for demanding scientific calculations, use the services of up-to-date computing centres (MetaCentrum NGI, CERIT-SC, and a Joint Computing Centre of the Czech Technical University, Czech Institute of Chemical Technology, and the Charles University).*
- Issuing identity cards  
*Computer Science Centre is in charge of running the centres which issue Charles University identity cards. For more detail, see <http://prukazy.cuni.cz>.*
- Door access systems for buildings of the Charles University  
*Computer Science Centre provides advice and support in establishing electronic security for entry points of the Charles University. Entry security system consists of a camera and an access system.*
- Solution of security incidents
