# uk-events

---

Network **uk-events** is intended for participants of events (conferences, seminars) organised within the premises of Rectorate of the Charles University (Ovocný trh 3/5 + Celetná 20, Prague 1)

This WiFi's SSID (network name) is **uk-events**. Its coverage corresponds to the coverage of the eduroam network within the premises of the Rectorate of the Charles University.

Using DHCP, users are assigned IPv4 addresses within the range 192.168.190.0/23. The entire network then uses NAT/PAT translated to a public IPv4 address 88.208.125.6. Operation of the network is limited to the following services:

Port	Service
22/tcp	Secure Shell
80/tcp	HTTP
110/tcp	POP3
123/udp	NTP
143/tcp	IMAP4
389/tcp	LDAP
443/tcp	HTTPS
465/tcp	SMTPTS
587/tcp	Apple mail
636/tcp	LDAPS
993/tcp	IMAPS
995/tcp	POP3S
1194-1195/tcp	OpenVPN
1194-1195/udp	OpenVPN
1723/tcp	PPTP
3389/tcp	RDP
3478-3497/udp	Apple Facetime
5223/tcp	Apple mail
16384-16386/udp	Apple Facetime
16393-16402/udp	Apple Facetime
30000/tcp	Apple IM+

Plus protocols ICMP, GRE, ESP, and AH for VPN. To send mail, one can use *smtp.events.cuni.cz* machine as an SMTP server.

After signing into a network, users trying to access some existing webpage are redirected to the login page. There they have to log in using password for the relevant event which they receive from the event's organiser.
